Open Roberta Blöcke

The image displays the Open Roberta Blocks interface, which is a visual programming environment for robots. It features a grid of blocks organized into columns. The first column contains movement blocks like 'Gehe [] mal vor' and 'Drehe []'. The second column contains similar movement blocks, including 'Gehe [] mal zurück' and a 'Male Feld aus' block. The third and fourth columns contain loop blocks ('Wiederhole [] mal mache') and conditional blocks ('Wenn mache', 'sonst'). The fifth column shows a vertical stack of colored blocks. The bottom left corner features a grid of rotation blocks (90°, 180°) and a grid of numbered blocks (1-5). The bottom right corner shows a grid of color blocks ('Farbe').
